

Stabox® continuity strip 22B, Ø 10 mm, s 100 mm

Item No. STA22B1010

[▶ more product details](#)

Stabox® S double-row continuity strip

- Stabox® S continuity strip offers the highest joint category "indented joint" according to Eurocode 2 for the dimensioning of the shear force transmission. The shear force design resistance for all load cases (after type test, type static calculation and type test report) can be taken from the Stabox® brochure. Stabox® S connections are available in standard and special versions
